

# Paper Plate Mazes

Why? What? How? When?--- I am a scientist!

After reading Ada Twist Scientist, you will need to think creatively and solve a challenge just like a scientist!

Challenge: Create a paper plate maze that you can run a marble through. Make sure to label a start and finish on your maze.

Just like Ada, you need to think about your maze before building. You must also “test it and test it” just like Ada did in the book.

## **Materials Available:**

- 1 Paper Plate
- Scissors (your classroom scissors)
- Construction Paper
- Tape
- Markers (classroom supply)
- Pipe Cleaners
- Straws

\*\*\*\*\* You can cut these to make them work for your maze\*\*\*\*\*

*You can work with a group or by yourself, you can decide. Remember to keep asking yourself, What? How? When? Where?  
Just like Ada did!*

## **Have fun scientists!**
